U.M.A.G.E.

WITH LOVE FROM COPENHAGEN

At UIMAGE, our designers take inspiration from the distinct nature of the Nordic landscape to create unique designs related to the way we live in an urban setting. Influenced by the design language, colours and materials found around us in Scandinavia, we create a collection that is rooted in our home but designed for everyone.

Versatile, flexible and multifunctional, our designs are created to enhance an urban lifestyle in smaller spaces!

SUSTAINABLE SUSTAINABILITY EFFORTS

We are dedicated being sensible frontrunners on the environmental responsibility. If we provide timeless and functional quality designs that last, we know nature will prevail, as will UIMAGE.

*"SAVING THE SCENT OF THE FOREST
AFTER AN EARLY MORNING RAIN"*

GIVING BACK TO NATURE

In collaboration with the NGO One Tree Planted, we are planting a tree every time one of our designs made from wood are being sold.

MULTIFUNCTION AND FLEXIBILITY

One of the key aspects of the designs at UIMAGE is multiple functions and flexibility. Designing with more than one function in mind is a sustainable mindset as it reduces the number of products you need to buy to get a complete setting for your space.

REUSABLE PACKAGING

To minimize packaging waste, most of the packaging from our lighting collection is repurposed to be used as beautiful storage boxes afterwards. Learn more on the next page...

REUSABLE PACKAGING

With your new lamp, you have also received a free decorative storage box for the shelf.

THIS IS HOW IT WORKS

When your new lamp is out of the box you can keep the box and reuse it as a storage box for your small bits and bobs and place it on the shelf or on the top of your closet - repurposing the packaging for you and the environment.

So not only are UIMAGE's designs flat-packed to optimize the global logistics and the environmental footprint, but it ensures that you don't need to throw away tons of packaging material, that can just as well be reused for something new.
